

Course Description – Curriculum 2013

Subject: FN399 Practical Capability Development in Finance

Credits: 3

Prerequisite: FN major and 3rd-year student status

Description: This course allows students majoring in finance to learn more in the real world of business. Students will participate and practice in organizations, public or private, so they can comprehend the working elements and environment. This shall enhance students' working experience and capability, which will be useful for their future career. Students will register this course in a summer semester (totaling 100 working hours). Students must follow the rules and regulations regarding the internship as required by Thammasat Business School. There will be evaluation with grade S (Satisfactory) and grade U (Unsatisfactory). With S grade, students will be given the internship certificate.
